3 read:

4 11-861. Adoption of codes by reference; limitations; method of  
5 adoption; fire sprinklers; fire apparatus access  
6 roads or approved routes; intent; state preemption;  
7 fire watch requirements; pool barrier gates

8 A. In any county that has adopted zoning pursuant to this chapter, the  
9 board of supervisors may adopt and enforce, for the unincorporated areas of  
10 the county so zoned, a building code and other related codes to regulate the  
11 quality, type of material and workmanship of all aspects of construction of  
12 buildings or structures, except that the board may authorize that areas zoned  
13 rural or unclassified may be exempt from the provisions of the code adopted.  
14 The codes may be adopted by reference after notice and hearings before the  
15 county planning and zoning commission and board of supervisors as provided in  
16 this chapter for amendments to the zoning ordinance of the county.

17 B. The board of supervisors may adopt a fire prevention code in the  
18 unincorporated areas of the county in which a fire district has not adopted a  
19 nationally recognized fire code pursuant to section 48-805. Any fire code  
20 adopted by a board of supervisors pursuant to this subsection shall remain in  
21 effect until a fire district is established and adopts a code applicable  
22 within the boundaries of the district.

23 C. For the purpose of this article, codes authorized by subsections A  
24 and B of this section shall be limited to the following:

25 1. Any building, electrical, plumbing or mechanical code that has been  
26 adopted by any national organization or association that is organized and  
27 conducted for the purpose of developing codes or that has been adopted by the  
28 largest city in that county. If the board of supervisors adopts a city code,  
29 it shall adopt, within ninety days after receiving a written notification of  
30 a change to the city code, the same change or shall terminate the adopted  
31 city code.

32 2. Any fire prevention code that has been adopted by a national  
33 organization or association organized or conducted for the purpose of  
34 developing fire prevention codes and that is as stringent as the state fire  
35 code adopted pursuant to section ~~41-2146~~ 37-1307.

36 D. The board of supervisors may adopt a current wildland-urban  
37 interface code. The code may be adapted from a model code adopted by a  
38 national or international organization or association for mitigating the  
39 hazard to life and property. The board must follow written public procedures  
40 in the development and adoption of the code and any revisions to the code to  
41 provide effective, early and continuous public participation through:

42 1. The broad dissemination and publicity of the proposed code and any  
43 revisions to the code.

44 2. The opportunity for submission and consideration of written public  
45 comments.

1           3. Open discussions, communications programs and information services.

2           4. Consultation with federal agencies and state and local officials.

3           E. The board of supervisors shall not adopt a code or ordinance or  
4 part of a uniform code or ordinance that prohibits a person or entity from  
5 choosing to install or equip or not install or equip fire sprinklers in a  
6 single family detached residence or any residential building that contains  
7 not more than two dwelling units. The board of supervisors shall not impose  
8 any fine, penalty or other requirement on any person or entity for choosing  
9 to install or equip or not install or equip fire sprinklers in such a  
10 residence. This subsection does not apply to any code or ordinance that  
11 requires fire sprinklers in a residence and that was adopted before  
12 December 31, 2009. The provisions of this subsection shall be included on  
13 all fire sprinkler permit applications that are for a single family detached  
14 residence or any residential building that contains not more than two  
15 dwelling units.

16           F. A fire sprinkler permit application may be in either print or  
17 electronic format.

21 an approved route or a route extension, or both, that directly or indirectly  
22 requires a one or two family residence or a utility or miscellaneous  
23 accessory building or structure to install fire sprinklers. A fire code  
24 official may increase or extend an approved fire apparatus access road or a  
25 fire apparatus access road extension, or both, or an approved route or a

28 subsection may be enforced in a private civil action and relief, including an  
29 injunction, may be awarded against a county. The court shall award  
30 reasonable attorney fees, damages, lost opportunity costs, interest and the  
31 cost of the sprinkler system to a party that prevails in an action against a

33 determines that property rights are a matter of statewide concern and a  
34 fundamental element of freedom. A property owner's right to use the property  
35 owner's property must be protected from unreasonable abridgment by county  
36 regulation and enforcement. This subsection supersedes and preempts any  
37 regulation adopted by a county regarding an approved fire apparatus access  
38 road, fire apparatus access road extension, approved route or route  
39 extension. For the purposes of this subsection:

6 fire watch shall be equipped with means to contact the local fire department,  
7 and the person's only duty while keeping watch for fires shall be to perform  
8 constant patrols of the protected premises. The county shall provide the  
9 fire watch with printed instructions from the state fire marshal and may  
10 provide a free training session before the person's deployment as the fire  
11 watch begins. For the purposes of this subsection, "fire watch" means a  
12 person who is stationed in a building or in a place relative to a building to  
13 observe the building and its openings when the fire protection system for the  
14 building is temporarily nonoperational or absent.

15 I. From and after December 31, 2014, a code or ordinance or part of a  
16 uniform code or ordinance that is adopted by the board of supervisors applies  
17 to locking devices for pool barrier gates used for means of ingress or egress  
18 for semipublic swimming pools. Any new construction or major renovation of a  
19 semipublic swimming pool from and after December 31, 2014 must meet the  
20 requirements of the code or ordinance or part of the uniform code or  
21 ordinance that is adopted by the board of supervisors. This subsection does  
22 not apply to a locking device for a pool barrier gate used for means of  
23 ingress or egress for a semipublic swimming pool that was installed before  
24 January 1, 2015, if the locking device meets the requirements prescribed in

2 fire prevention and mechanical codes adopted by the city, town, county or  
3 fire district in which the building is located. The owner of the public  
4 building is subject to the same fees required of other persons. Public  
5 buildings are subject to inspection during construction pursuant to these  
6 codes to determine compliance.

7 B. If a public building is built in an area that has not adopted local  
8 codes, the building shall be designed or constructed according to the state  
9 fire code adopted by the state fire marshal and the building, plumbing,

38 available.

39 F. The state fire marshal may adopt a subsequent American society of  
40 testing and materials standard test method for measuring the ignition  
41 strength of cigarettes on a finding that the subsequent method does not  
42 result in a change in the percentage of full-length burns exhibited by any  
43 tested cigarette if compared to the percentage of full-length burns the same  
44 cigarette would exhibit if it were tested pursuant to the American society of

1 testing and materials standard E2187-04 and the performance standard  
2 prescribed in subsection B, paragraph 3 of this section.

3 G. The state fire marshal shall review the effectiveness of this

21 For the purposes of this paragraph, "consumer testing" means an assessment of  
22 cigarettes that is conducted by a manufacturer, or under the control and

10 may have to a stay of the effectiveness of any order of revocation of the  
11 conditional license, the right to notice of hearing and the right to a  
12 hearing before the revocation of the license.

13 C. The agreement for conditional license does not prohibit the  
14 applicant from making a written demand for a hearing on the order of  
15 revocation pursuant to chapter 6, article 10 of this title. Pending the  
16 hearing, the applicant shall not continue to transact business under the  
17 conditional license.

18 D. On completion of the background analysis, the director may issue

44 license is denied and that the applicant may request in writing a hearing if  
45 the applicant so desires.

41-4027. Renewal of licenses; license status

A. Licenses issued under this article shall expire one year ~~from~~ AFTER the date of issuance. An application for renewal of any current license with evidence of a valid bond or cash deposit when accompanied by the required fee and received by the deputy director before the expiration date shall authorize the licensee to operate until actual issuance of the renewal license for the ensuing year.

B. A license ~~which~~ THAT expires may be reactivated and renewed within one year of its expiration by filing the required renewal application, signed by the licensee or qualifying party for a business licensee, evidence of a valid bond and payment of a fee of one hundred twenty-five ~~per-cent~~ PERCENT of the amount required for that license class. When a license has been expired for more than one year for failure to renew, a new application for license shall be made and a new license issued pursuant to this article. If the license has been expired for more than one year, the fee required shall be two hundred ~~per-cent~~ PERCENT of the fee required for that license class.

C. An applicant for renewal of a license issued pursuant to this article shall not be required to take a written examination.

D. A license is not transferable. Any change in the legal entity of a licensee that includes any change in the ownership of a sole proprietorship or a partner of a partnership or in the creation of a new corporate entity requires a new license.

E. A license may be cancelled on the written request of the owner of a sole proprietorship, a partner of a partnership or, in the case of a corporation, any person with written evidence of his authority to request the cancellation. A salesperson's license may be cancelled on the written request of the salesperson. The director may refuse to accept voluntary cancellation of a license if good cause may exist for disciplinary action.

F. If possible, the licensee shall notify the director in writing of the disassociation of a qualifying party before the action, and in any event no later than five business days after the action. The licensee shall also notify the director as to who will be temporarily responsible for the operation of the business. The absence of a written designated qualifying party for sixty days is grounds for suspension of the license. If a person ceases to be the qualifying party for a licensee, the person shall notify the office within five days.

G. An application for a new qualifying party shall include the completion of the prescribed forms, fingerprints and testing, if applicable, in accordance with sections ~~41-2175~~ 41-4025 and ~~41-2176~~ 41-4026.

H. A licensee may request the deputy director, on forms prescribed by the deputy director, to inactivate the licensee's current license for a period of not more than two years. In the absence of any disciplinary proceeding or disciplinary suspension and on payment of reasonable fees determined by the board the deputy director may issue an inactive license certificate to the licensee if the licensee has turned in his license. The inactive license certificate may consist of an endorsement on the licensee's license stating that the license is inactive. The deputy director may not refund any of the license renewal fee which a licensee paid before requesting inactive status. A licensee's license which is not suspended or revoked and is inactive shall be reactivated as an active license on payment of the current year's renewal fee and thirty days' written notice to the deputy director. No examination may be required to reactivate an inactive license. If the license is not reactivated within two years, a new application for licensing must be made and the new license issued pursuant to this chapter. No licensee may inactivate the license more than once. The holder of an inactive license shall not work as a licensee until his license is reactivated as an active license. The inactive status of a licensee's license does not bar any disciplinary action by the deputy director against a licensee for any of the grounds stated in this chapter.

Sec. 78. Section 41-4031, Arizona Revised Statutes, as transferred and renumbered, is amended to read:

41-4031. Complaints; citation; failure to respond; hearing

A. The office shall issue a citation ~~upon~~ ON failure to respond or ~~upon~~ ON the verified written complaint of a purchaser pursuant to section ~~41-2153~~ 41-4004, subsection B, paragraph 9 and shall issue a citation directing the licensee, within ten days after service of the citation ~~upon~~ ON the licensee, to appear by filing with the office a verified answer to the complaint showing cause why the license should not be revoked or suspended. The deputy director, after conducting an investigation pursuant to section ~~41-2186~~ 41-4039, may issue a citation on the deputy director's own initiative.

B. Failure of the licensee to answer shall be deemed an admission by the licensee of the cited complaint or failure to respond as charged in the citation, and the office may suspend or revoke such license without a hearing.

C. A person served with a citation or with a cease and desist order by the state fire marshal may request a hearing pursuant to chapter 6, article 10 of this title.

Sec. 79. Section 41-4032, Arizona Revised Statutes, as transferred and renumbered, is amended to read:

2 designated cosmetic complaint date prescribed in section ~~41-2182.01~~ 41-4033.

20 above the signature lines and in bold print, advising the purchaser that all  
21 cosmetic, superficial or minor matters found during the walk-through should  
22 be listed on the form and that the complaint filing period for cosmetic,  
23 superficial or minor matters is one hundred twenty days from either the date  
24 of installation of the home or the designated cosmetic complaint date  
25 prescribed in section ~~41-2182.01~~ 41-4033.

26 E. For the purposes of this section, "cosmetic, superficial or minor  
27 matters" means any defect or condition that renders a part of the home not  
28 fit for its intended, expected or ordinary use or appearance, including

D. If the purchaser designates a beginning date for the cosmetic complaint period, the dealer may schedule the walk-through pursuant to section ~~41-2182~~ 41-4032 at any time within thirty days after the designated beginning date. The dealer shall notify the purchaser by certified mail of the scheduled walk-through date.

E. If a dealer uses a form of purchase contract that does not notify the customer of the right to designate a cosmetic complaint date and does not include a space for this designation, the one hundred twenty day complaint period prescribed in section ~~41-2182~~ 41-4032 does not begin until the purchaser physically occupies the home with the purpose of residing in the home for more than thirty days.

(b) The attributable amount is equal to the total amount of development fees paid by the prime contractor or subcontractor, and the total development fees credited in exchange for the construction of, contribution to or dedication of real property for providing public infrastructure, public safety or other public services necessary to the development. The real property must be the subject of the development fees.

(c) "Development fees" means fees imposed to offset capital costs of providing public infrastructure, public safety or other public services to a development and authorized pursuant to section 9-463.05, section 11-1102 or title 48 regardless of the jurisdiction to which the fees are paid.

20. The gross proceeds of sales or gross income derived from a contract entered into for the construction of a mixed waste processing facility that is located on a municipal solid waste landfill and that is constructed for the purpose of recycling solid waste or producing renewable energy from landfill waste. For the purposes of this paragraph:

(a) "Mixed waste processing facility" means a solid waste facility that is owned, operated or used for the treatment, processing or disposal of solid waste, recyclable solid waste, conditionally exempt small quantity generator waste or household hazardous waste. For the purposes of this subdivision, "conditionally exempt small quantity generator waste", "household hazardous waste" and "solid waste facility" have the same meanings prescribed in section 49-701, except that solid waste facility does include a site that stores, treats or processes paper, glass, wood, cardboard, household textiles, scrap metal, plastic, vegetative waste, aluminum, steel or other recyclable material.

(b) "Municipal solid waste landfill" has the same meaning prescribed in section 49-701.

(c) "Recycling" means collecting, separating, cleansing, treating and reconstituting recyclable solid waste that would otherwise become solid waste, but does not include incineration or other similar processes.

(d) "Renewable energy" has the same meaning prescribed in section 41-1511.

C. Entitlement to the deduction pursuant to subsection B, paragraph 7 of this section is subject to the following provisions:

1. A prime contractor may establish entitlement to the deduction by both:

(a) Marking the invoice for the transaction to indicate that the gross proceeds of sales or gross income derived from the transaction was deducted from the base.

(b) Obtaining a certificate executed by the purchaser indicating the name and address of the purchaser, the precise nature of the business of the purchaser, the purpose for which the purchase was made, the necessary facts to establish the deductibility of the property under section 42-5061, subsection B, and a certification that the person executing the certificate is authorized to do so on behalf of the purchaser. The certificate may be disregarded if the prime contractor has reason to believe that the information contained in the certificate is not accurate or complete.

2. A person who does not comply with paragraph 1 of this subsection may establish entitlement to the deduction by presenting facts necessary to support the entitlement, but the burden of proof is on that person.

3. The department may prescribe a form for the certificate described in paragraph 1, subdivision (b) of this subsection. The department may also adopt rules that describe the transactions with respect to which a person is not entitled to rely solely on the information contained in the certificate provided in paragraph 1, subdivision (b) of this subsection but must instead obtain such additional information as required in order to be entitled to the deduction.

4. If a prime contractor is entitled to a deduction by complying with paragraph 1 of this subsection, the department may require the purchaser who caused the execution of the certificate to establish the accuracy and completeness of the information required to be contained in the certificate that would entitle the prime contractor to the deduction. If the purchaser cannot establish the accuracy and completeness of the information, the purchaser is liable in an amount equal to any tax, penalty and interest that the prime contractor would have been required to pay under article 1 of this chapter if the prime contractor had not complied with paragraph 1 of this subsection. Payment of the amount under this paragraph exempts the purchaser from liability for any tax imposed under article 4 of this chapter. The amount shall be treated as a transaction privilege tax to the purchaser and as tax revenues collected from the prime contractor in order to designate the distribution base for purposes of section 42-5029.

D. Subcontractors or others who perform modification activities are not subject to tax if they can demonstrate that the job was within the control of a prime contractor or contractors or a dealership of manufactured buildings and that the prime contractor or dealership is liable for the tax on the gross income, gross proceeds of sales or gross receipts attributable to the job and from which the subcontractors or others were paid.

E. Amounts received by a contractor for a project are excluded from the contractor's gross proceeds of sales or gross income derived from the business if the person who hired the contractor executes and provides a certificate to the contractor stating that the person providing the

1 certificate is a prime contractor and is liable for the tax under article 1  
2 of this chapter. The department shall prescribe the form of the certificate.  
3 If the contractor has reason to believe that the information contained on the  
4 certificate is erroneous or incomplete, the department may disregard the  
5 certificate. If the person who provides the certificate is not liable for  
6 the tax as a prime contractor, that person is nevertheless deemed to be the  
7 prime contractor in lieu of the contractor and is subject to the tax under  
8 this section on the gross receipts or gross proceeds received by the  
9 contractor.

10 F. Every person engaging or continuing in this state in the business  
11 of prime contracting or dealership of manufactured buildings shall present to  
12 the purchaser of such prime contracting or manufactured building a written  
13 receipt of the gross income or gross proceeds of sales from such activity and  
14 shall separately state the taxes to be paid pursuant to this section.

15 G. For the purposes of section 42-5032.01, the department shall  
16 separately account for revenues collected under the prime contracting  
17 classification from any prime contractor engaged in the preparation or  
18 construction of a multipurpose facility, and related infrastructure, that is  
19 owned, operated or leased by the tourism and sports authority pursuant to  
20 title 5, chapter 8.

21 H. For the purposes of section 42-5032.02, from and after  
22 September 30, 2013, the department shall separately account for revenues  
23 reported and collected under the prime contracting classification from any  
24 prime contractor engaged in the construction of any buildings and associated  
25 improvements that are for the benefit of a manufacturing facility. For the  
26 purposes of this subsection, "associated improvements" and "manufacturing  
27 facility" have the same meanings prescribed in section 42-5032.02.

28 I. The gross proceeds of sales or gross income derived from a contract  
29 for lawn maintenance services are not subject to tax under this section if  
30 the contract does not include landscaping activities. Lawn maintenance  
31 service is a service pursuant to section 42-5061, subsection A, paragraph 1,  
32 and includes lawn mowing and edging, weeding, repairing sprinkler heads or  
33 drip irrigation heads, seasonal replacement of flowers, refreshing gravel,  
34 lawn de-thatching, seeding winter lawns, leaf and debris collection and  
35 removal, tree or shrub pruning or clipping, garden and gravel raking and  
36 applying pesticides, as defined in section 3-361, and fertilizer materials,  
37 as defined in section 3-262.

38 J. Except as provided in subsection 0 of this section, the gross  
39 proceeds of sales or gross income derived from landscaping activities are  
40 subject to tax under this section. Landscaping includes installing lawns,  
41 grading or leveling ground, installing gravel or boulders, planting trees and  
42 other plants, felling trees, removing or mulching tree stumps, removing other  
43 imbedded plants, building irrigation berms, installing railroad ties and  
44 installing underground sprinkler or watering systems.

K. The portion of gross proceeds of sales or gross income attributable to the actual direct costs of providing architectural or engineering services that are incorporated in a contract is not subject to tax under this section. For the purposes of this subsection, "direct costs" means the portion of the actual costs that are directly expended in providing architectural or engineering services.

L. Operating a landfill or a solid waste disposal facility is not subject to taxation under this section, including filling, compacting and creating vehicle access to and from cell sites within the landfill. Constructing roads to a landfill or solid waste disposal facility and constructing cells within a landfill or solid waste disposal facility may be deemed prime contracting under this section.

M. The following apply in determining the taxable situs of sales of manufactured buildings:

1. For sales in this state where the manufactured building dealer contracts to deliver the building to a setup site or to perform the setup in this state, the taxable situs is the setup site.

2. For sales in this state where the manufactured building dealer does not contract to deliver the building to a setup site or does not perform the setup, the taxable situs is the location of the dealership where the building is delivered to the buyer.

3. For sales in this state where the manufactured building dealer contracts to deliver the building to a setup site that is outside this state, the situs is outside this state and the transaction is excluded from tax.

N. The gross proceeds of sales or gross income attributable to a written contract for design phase services or professional services, executed before modification begins and with terms, conditions and pricing of all of these services separately stated in the contract from those for construction phase services, is not subject to tax under this section, regardless of whether the services are provided sequential to or concurrent with prime contracting activities that are subject to tax under this section. This subsection does not include the gross proceeds of sales or gross income attributable to construction phase services. For the purposes of this subsection:

1. "Construction phase services" means services for the execution and completion of any modification, including the following:

(a) Administration or supervision of any modification performed on the project, including team management and coordination, scheduling, cost controls, submittal process management, field management, safety program, close-out process and warranty period services.

(b) Administration or supervision of any modification performed pursuant to a punch list. For the purposes of this subdivision, "punch list" means minor items of modification work performed after substantial completion and before final completion of the project.

1 (c) Administration or supervision of any modification performed  
2 pursuant to change orders. For the purposes of this subdivision, "change  
3 order" means a written instrument issued after execution of a contract for  
4 modification work, providing for all of the following:

5 (i) The scope of a change in the modification work, contract for  
6 modification work or other contract documents.

7 (ii) The amount of an adjustment, if any, to the guaranteed maximum  
8 price as set in the contract for modification work. For the purposes of this  
9 item, "guaranteed maximum price" means the amount guaranteed to be the  
10 maximum amount due to a prime contractor for the performance of all  
11 modification work for the project.

12 (iii) The extent of an adjustment, if any, to the contract time of  
13 performance set forth in the contract.

14 (d) Administration or supervision of any modification performed  
15 pursuant to change directives. For the purposes of this subdivision, "change  
16 directive" means a written order directing a change in modification work  
17 before agreement on an adjustment of the guaranteed maximum price or contract  
18 time.

19 (e) Inspection to determine the dates of substantial completion or  
20 final completion.

21 (f) Preparation of any manuals, warranties, as-built drawings, spares  
22 or other items the prime contractor must furnish pursuant to the contract for  
23 modification work. For the purposes of this subdivision, "as-built drawing"  
24 means a drawing that indicates field changes made to adapt to field  
25 conditions, field changes resulting from change orders or buried and  
26 concealed installation of piping, conduit and utility services.

27 (g) Preparation of status reports after modification work has begun  
28 detailing the progress of work performed, including preparation of any of the  
29 following:

30 (i) Master schedule updates.

31 (ii) Modification work cash flow projection updates.

32 (iii) Site reports made on a periodic basis.

33 (iv) Identification of discrepancies, conflicts or ambiguities in  
34 modification work documents that require resolution.

35 (v) Identification of any health and safety issues that have arisen in  
36 connection with the modification work.

37 (h) Preparation of daily logs of modification work, including  
38 documentation of personnel, weather conditions and on-site occurrences.

39 (i) Preparation of any submittals or shop drawings used by the prime  
40 contractor to illustrate details of the modification work performed.

41 (j) Administration or supervision of any other activities for which a  
42 prime contractor receives a certificate for payment or certificate for final  
43 payment based on the progress of modification work performed on the project.

1           2. "Design phase services" means services for developing and  
2 completing a design for a project that are not construction phase services,  
3 including the following:

4           (a) Evaluating surveys, reports, test results or any other information  
5 on-site conditions for the project, including physical characteristics, legal  
6 limitations and utility locations for the site.

7           (b) Evaluating any criteria or programming objectives for the project  
8 to ascertain requirements for the project, such as physical requirements  
9 affecting cost or projected utilization of the project.

10          (c) Preparing drawings and specifications for architectural program  
11 documents, schematic design documents, design development documents,  
12 modification work documents or documents that identify the scope of or  
13 materials for the project.

14          (d) Preparing an initial schedule for the project, excluding the  
15 preparation of updates to the master schedule after modification work has  
16 begun.

17          (e) Preparing preliminary estimates of costs of modification work  
18 before completion of the final design of the project, including an estimate  
19 or schedule of values for any of the following:

20           (i) Labor, materials, machinery and equipment, tools, water, heat,  
21 utilities, transportation and other facilities and services used in the  
22 execution and completion of modification work, regardless of whether they are  
23 temporary or permanent or whether they are incorporated in the modifications.

24           (ii) The cost of labor and materials to be furnished by the owner of  
25 the real property.

26           (iii) The cost of any equipment of the owner of the real property to  
27 be assigned by the owner to the prime contractor.

28           (iv) The cost of any labor for installation of equipment separately  
29 provided by the owner of the real property that has been designed, specified,  
30 selected or specifically provided for in any design document for the project.

31           (v) Any fee paid by the owner of the real property to the prime  
32 contractor pursuant to the contract for modification work.

33           (vi) Any bond and insurance premiums.

34           (vii) Any applicable taxes.

35           (viii) Any contingency fees for the prime contractor that may be used  
36 before final completion of the project.

37          (f) Reviewing and evaluating cost estimates and project documents to  
38 prepare recommendations on site use, site improvements, selection of  
39 materials, building systems and equipment, modification feasibility,  
40 availability of materials and labor, local modification activity as related  
41 to schedules and time requirements for modification work.

42          (g) Preparing the plan and procedures for selection of subcontractors,  
43 including any prequalification of subcontractor candidates.

44          3. "Professional services" means architect services, assayer services,  
45 engineer services, geologist services, land surveying services or landscape

1 architect services that are within the scope of those services as provided in  
2 title 32, chapter 1 and for which gross proceeds of sales or gross income has  
3 not otherwise been deducted under subsection K of this section.

4       O. The gross proceeds of sales or gross income derived from a contract  
5 with the owner of real property or improvements to real property for the  
6 maintenance, repair, replacement or alteration of existing property is not  
7 subject to tax under this section if the contract does not include  
8 modification activities, except as specified in this subsection. The gross  
9 proceeds of sales or gross income derived from a de minimis amount of  
10 modification activity does not subject the contract or any part of the  
11 contract to tax under this section. For the purposes of this subsection:

12       1. Tangible personal property that is incorporated or fabricated into  
13 a project described in this subsection may be subject to the amount  
14 prescribed in section 42-5008.01.

15       2. Each contract is independent of any other contract, except that any  
16 change order that directly relates to the scope of work of the original  
17 contract shall be treated the same as the original contract under this  
18 chapter, regardless of the amount of modification activities included in the  
19 change order. If a change order does not directly relate to the scope of  
20 work of the original contract, the change order shall be treated as a new  
21 contract, with the tax treatment of any subsequent change order to follow the  
22 tax treatment of the contract to which the scope of work of the subsequent  
23 change order directly relates.

24       P. Notwithstanding subsection O of this section, a contract that  
25 primarily involves surface or subsurface improvements to land and that is  
26 subject to title 28, chapter 19, 20 or 22 or title 34, chapter 2 or 6 is  
27 taxable under this section, even if the contract also includes vertical  
28 improvements. Agencies that are subject to procurement processes under those  
29 provisions shall include in the request for proposals a notice to bidders  
30 when those projects are subject to this section. This subsection does not  
31 apply to contracts with:

32       1. Community facilities districts, fire districts, county television  
33 improvement districts, community park maintenance districts, cotton pest  
34 control districts, hospital districts, pest abatement districts, health  
35 service districts, agricultural improvement districts, county free library  
36 districts, county jail districts, county stadium districts, special health  
37 care districts, public health services districts, theme park districts,  
38 regional attraction districts or revitalization districts.

39       2. Any special taxing district not specified in paragraph 1 of this  
40 subsection if the district does not substantially engage in the modification,  
41 maintenance, repair, replacement or alteration of surface or subsurface  
42 improvements to land.

43       Q. Notwithstanding subsection R, paragraph 10 of this section, a  
44 person owning real property who enters into a contract for sale of the real  
45 property, who is responsible to the new owner of the property for

1 modifications made to the property in the period subsequent to the transfer  
2 of title and who receives a consideration for the modifications is considered  
3 a prime contractor solely for purposes of taxing the gross proceeds of sale  
4 or gross income received for the modifications made subsequent to the  
5 transfer of title. The original owner's gross proceeds of sale or gross  
6 income received for the modifications shall be determined according to the  
7 following methodology:

8 1. If any part of the contract for sale of the property specifies  
9 amounts to be paid to the original owner for the modifications to be made in  
10 the period subsequent to the transfer of title, the amounts are included in  
11 the original owner's gross proceeds of sale or gross income under this  
12 section. Proceeds from the sale of the property that are received after  
13 transfer of title and that are unrelated to the modifications made subsequent  
14 to the transfer of title are not considered gross proceeds of sale or gross  
15 income from the modifications.

16 2. If the original owner enters into an agreement separate from the  
17 contract for sale of the real property providing for amounts to be paid to  
18 the original owner for the modifications to be made in the period subsequent  
19 to the transfer of title to the property, the amounts are included in the  
20 original owner's gross proceeds of sale or gross income received for the  
21 modifications made subsequent to the transfer of title.

22 3. If the original owner is responsible to the new owner for  
23 modifications made to the property in the period subsequent to the transfer  
24 of title and derives any gross proceeds of sale or gross income from the  
25 project subsequent to the transfer of title other than a delayed disbursement  
26 from escrow unrelated to the modifications, it is presumed that the amounts  
27 are received for the modifications made subsequent to the transfer of title  
28 unless the contrary is established by the owner through its books, records  
29 and papers kept in the regular course of business.

30 4. The tax base of the original owner is computed in the same manner  
31 as a prime contractor under this section.

32 R. For the purposes of this section:

33 1. "Alteration" means an activity or action that causes a direct  
34 physical change to existing property. For the purposes of this paragraph:

35 (a) For existing property that is properly classified as class two  
36 property under section 42-12002, paragraph 1, subdivision (c) or paragraph 2,  
37 subdivision (c) and that is used for residential purposes, class three  
38 property under section 42-12003 or class four property under 42-12004, this  
39 paragraph does not apply if the contract amount is more than twenty-five  
40 percent of the most recent full cash value established under chapter 13,  
41 article 2 of this title as of the date of any bid for the work or the date of  
42 the contract, whichever value is higher.

43 (b) For all existing property other than existing property described  
44 in subdivision (a) of this paragraph, this paragraph does not apply if any of  
45 the following is true:

1 (i) The contract amount is more than seven hundred fifty thousand  
2 dollars.

3 (ii) The scope of work directly relates to more than forty percent of  
4 the existing square footage of the existing property.

5 (iii) The scope of work involves expanding the square footage of more  
6 than ten percent of the existing property.

7 (c) Project elements may not be artificially separated from a contract  
8 to cause a project to qualify as an alteration. The department has the  
9 burden of proof that project elements have been artificially separated from a  
10 contract.

11 (d) If a project for which the owner and the person performing the  
12 work reasonably believed, at the inception of the contract, would be treated  
13 as an alteration under this paragraph and, on completion of the project, the  
14 project exceeded the applicable threshold described in either subdivision (a)  
15 or (b) of this paragraph by no more than twenty-five percent of the  
16 applicable threshold for any reason, the work performed under the contract  
17 qualifies as an alteration.

18 (e) A change order that directly relates to the scope of work of the  
19 original contract shall be treated as part of the original contract, and the  
20 contract amount shall include any amount attributable to a change order that  
21 directly relates to the scope of work of the original contract.

22 (f) Alteration does not include maintenance, repair or replacement.

23 2. "Contracting" means engaging in business as a contractor.

24 3. "Contractor" is synonymous with the term "builder" and means any  
25 person or organization that undertakes to or offers to undertake to, or  
26 purports to have the capacity to undertake to, or submits a bid to, or does  
27 personally or by or through others, modify any building, highway, road,  
28 railroad, excavation, manufactured building or other structure, project,  
29 development or improvement, or to do any part of such a project, including  
30 the erection of scaffolding or other structure or works in connection with  
31 such a project, and includes subcontractors and specialty contractors. For  
32 all purposes of taxation or deduction, this definition shall govern without  
33 regard to whether or not such contractor is acting in fulfillment of a  
34 contract.

35 4. "Manufactured building" means a manufactured home, mobile home or  
36 factory-built building, as defined in section ~~41-2142~~ 41-4001.

37 5. "Manufactured building dealer" means a dealer who either:

38 (a) Is licensed pursuant to title 41, chapter ~~16~~ 37, ARTICLE 4 and who  
39 sells manufactured buildings to the final consumer.

40 (b) Supervises, performs or coordinates the excavation and completion  
41 of site improvements or the setup or moving of a manufactured building  
42 including the contracting, if any, with any subcontractor or specialty  
43 contractor for the completion of the contract.

44 6. "Modification" means construction, grading and leveling ground,  
45 wreckage or demolition. Modification does not include:

1 (a) Any project described in subsection 0 of this section.

2 (b) Any wreckage or demolition of existing property, or any other  
3 activity that is a necessary component of a project described in subsection 0  
4 of this section.

5 (c) Any mobilization or demobilization related to a project described  
6 in subsection 0 of this section, such as the erection or removal of temporary  
7 facilities to be used by those persons working on the project.

8 7. "Modify" means to make a modification or cause a modification to be  
9 made.

10 8. "Owner" means the person that holds title to the real property or  
11 improvements to real property that is the subject of the work, as well as an  
12 agent of the title holder and any person with the authority to perform or  
13 authorize work on the real property or improvements, including a tenant and a  
14 property manager. For the purposes of subsection 0 of this section, a person  
15 who is hired by a general contractor that is hired by an owner, or a  
16 subcontractor of a general contractor that is hired by an owner, is  
17 considered to be hired by the owner.

18 9. "Prime contracting" means engaging in business as a prime  
19 contractor.

20 10. "Prime contractor" means a contractor who supervises, performs or  
21 coordinates the modification of any building, highway, road, railroad,  
22 excavation, manufactured building or other structure, project, development or  
23 improvement including the contracting, if any, with any subcontractors or  
24 specialty contractors and who is responsible for the completion of the  
25 contract. Except as provided in subsections E and Q of this section, a  
26 person who owns real property, who engages one or more contractors to modify  
27 that real property and who does not itself modify that real property is not a  
28 prime contractor within the meaning of this paragraph regardless of the  
29 existence of a contract for sale or the subsequent sale of that real  
30 property.

31 11. "Replacement" means the removal from service of one component or  
32 system of existing property or tangible personal property installed in  
33 existing property, including machinery or equipment, and the installation of  
34 a new component or system or new tangible personal property, including  
35 machinery or equipment, that provides the same similar or upgraded design or  
36 functionality, regardless of the contract amount and regardless of whether  
37 the existing component or system or existing tangible personal property is  
38 physically removed from the existing property.

39 12. "Sale of a used manufactured building" does not include a lease of  
40 a used manufactured building.

41 Sec. 96. Section 42-5160, Arizona Revised Statutes, is amended to  
42 read:

44 Any person who uses, stores or consumes any tangible personal property  
45 upon which a tax is imposed by this article and upon which the tax has not

1 been collected by a registered retailer or utility business shall pay the tax  
 2 as provided by this article, but every retailer and utility business  
 3 maintaining a place of business in this state and making sales of tangible  
 4 personal property for storage, use or other consumption in this state shall  
 5 collect the tax from the purchaser or user unless the property is exempt  
 6 under this article or the purchaser or user pays the tax directly to the  
 7 department as provided by section 42-5167. In the case of a manufactured  
 8 building that is purchased from a dealer outside this state and brought into  
 9 this state, any person who is hired to set up the manufactured building and  
 10 who is licensed pursuant to title 41, chapter ~~16~~ 37, article 4 shall collect  
 11 the tax from the owner and remit the tax with any tax that is due under the  
 12 prime contracting classification.
